Eastern Kentucky University is an Equal Opportunity/Affirmative Action Employer and Educational Institution

#### INTRODUCTION

Eastern Kentucky University is a regional, coeducational, public institution of higher education offering general and liberal arts programs, pre-professional and professional training in education and various other fields at both the undergraduate and graduate levels. Located in Richmond, Madison County, Kentucky, Eastern has a distinguished record of over nine decades of educational service to the Commonwealth.

#### HISTORY

The General Assembly of 1906 enacted legislation establishing the Eastern Kentucky State Normal School. Governor J. C. Beckham signed the bill into law on March 21, 1906, and on May 7 of the year, the Normal School Commission selected the campus of the old Central University, founded in 1874, in Richmond, Kentucky, as the site of the new school. On June 2, 1906, Ruric Nevel Roark was chosen President of the Normal School and the training of teachers was initiated.

In 1922, Eastern became a four-year institution known as the Eastern Kentucky State Normal School and Teachers College. The first degrees were awarded by this institution in 1925. In 1928, the College was accredited by the Southern Association of Colleges and Secondary Schools. In 1920, the General Assembly renamed the school as the Eastern Kentucky State Teachers College.

In 1935, a graduate program was approved at Eastern, leading to the Master of Arts in Education. In 1948, the General Assembly removed the word "Teachers" from the name of the College and granted the College the right to award nonprofessional degrees.

The most significant day since its founding came for Eastern February 26, 1966, when Governor Edward T. Breathitt signed into law a bill renaming the institution Eastern Kentucky University and sanctioning the awarding of graduate degrees in academic fields other than education.

Since 1966, Eastern Kentucky University has increased in size and stature. Beginning with a few students engaged in short review and certificate courses, the University today services thousands of Kentucky's young men and women by offering a curriculum leading to the Associate of Arts, baccalaureate degrees and an expanding graduate program that presently offers degrees at the Master's level in many other fields as well as the already well-established Master of Arts degree in education and the various fifth and sixth-year leadership programs in education. Specialist degree programs have been implemented in Education and Technology. In addition to these programs, Eastern offers joint doctoral programs with cooperating institutions.

Ever-mindful of the purpose of its founding, Eastern continues to recognize its historic function of preparing quality teachers for the elementary and secondary schools of the Commonwealth. However, a strong liberal arts curriculum leading to appropriate degrees, together with pre-professional courses in several areas and graduate programs, enable Eastern to uniquely serve the Commonwealth as a regional university.

#### **PURPOSE**

Within its statutory responsibilities, Eastern Kentucky University seeks to provide intellectual and cultural opportunities which will develop habits of scholarship and intellectual curiosity; provide a deep understanding of American democracy and the citizen's role in maintaining its strength and vitality; impart an understanding of man and his aspirations; enable effective and efficient communication; and prepare productive responsive citizens. The University will remain responsive and flexible in order to serve in unique and needed ways.

Within these general responsibilities and purposes, the University has three specific functions—teaching, public service, and research—and places emphasis on the three in this order. Through its colleges and schools, the University seeks to offer quality instruction at a variety of degree levels in general education, the arts, the sciences, business, education, pre-professional and professional areas, and applied technical disciplines. Through consultative service, continuing education, and the extended campus, the University seeks to provide service to the community and region. Research seeks both to advance knowledge in the subject matter areas with which the University is concerned and to support the primary function of teaching.

#### MISSION STATEMENT

**Eastern Kentucky University** shall serve the citizens of the Commonwealth of Kentucky as a comprehensive, regional university, providing instruction, public service and research.

**Geographic Region.** In the development and offering of its programs and services, the University shall place priority on meeting the needs of the citizens of central, eastern, and southeastern Kentucky.

**Institutional Admission Standards.** Eastern Kentucky University shall admit students to the institution under selective admission standards which exceed the minimum guidelines established by the Council on Higher Education, with only limited exceptions. Institutional standards shall be consistent with the systemwide policy for admitting underprepared students, including the removal of academic deficiencies within a specified timeframe. Through this approach, the University seeks to provide both broad access and high-quality programs.

**Degree Levels.** The University shall offer selected undergraduate programs, preprofessional curricula, and selected master's and education specialist programs determined to meet demonstrated student interest and/or societal needs. Special attention shall be paid to the educational needs of the University's service region. Certificate programs shall not be offered unless they are integral to associate or baccalaureate programs.

#### **MISSION STATEMENT (Continued)**

Strategic Directions/Program Priorities. Eastern Kentucky University shall: continue its tradition as an education of classroom teachers and school administrators; support the needs of Kentucky's business community; respond to appropriate societal needs and public policy objectives; and respond to the region's technical education needs. These strategic directions translate into a core of liberal arts baccalaureate degree programs, in addition to degree program priorities at the certificate, associate, baccalaureate, master's and education specialist levels that may include the following—agricultural business; conservation and renewable natural resources; marketing; communications; computer and information sciences; education; engineering technologies; home economics; vocational home economics; legal studies; English and literature; liberal arts; biological sciences; mathematics; parks; recreation and leisure; physical sciences; psychology; protective services; public administration and services; social sciences; precision production trades; transportation; fine arts; health professions; and business management.

**Enhancement of Instruction.** The primary mission of the University shall be to provide its students instruction of the highest possible quality. The University shall utilize information obtained through its assessment processes to enhance the quality of its instructional programs.

**Public Service and Research Functions.** The public service efforts of Eastern Kentucky University shall be designed to meet the needs of its service region and be related to its academic programs and capabilities. The continuing education requirements of the region's public school personnel and assistance in economic development should receive special emphasis. Research shall support the primary function of instruction, supplement the University's public service efforts, and advance knowledge in the subject matter areas with which the University is concerned. The University shall develop cooperative applied research and teaching programs using such resources as Maywoods, Lilley Cornett Woods, and Pilot Knot Sanctuary.

**Collaborative Ventures.** As a member of the Commonwealth's higher education system, it is incumbent on the University to cooperate with the other institutions, the Council on Higher Education and other state and federal agencies in fulfilling the strategic mission for higher education in Kentucky. This shall include the appropriate and efficient use of telecommunications technology. Further, to the extent possible, the University should foster articulation between its programs and those of other institutions, both public and private, which emphasizes the transfer of credits from other institutions toward degree completion.

**Efficiency and Effectiveness.** Eastern Kentucky University shall insure that its resources are expended in a manner consistent with its mission. This shall include the promotion of cost effectiveness in academic programming and institutional management. Strategic planning shall include both the identification of programs which are no longer responsive to a societal need or selected new programs compatible with this mission. Measures of quality and performance shall be integral to the University's assessment and accountability systems which promote continuous improvement of programs and services."

#### **INSTITUTIONAL GOALS**

The following institutional goals, approved by the Board of Regents, support the University Mission: (1) To be an effective, comprehensive, public, residential university of the Commonwealth of Kentucky; (2) To provide academic programs of the highest possible quality and to enhance access to these programs. To these ends, the University strives: (a) To employ and retain faculty with outstanding academic preparation and with a commitment to excellence in teaching and learning; (b) To attract students of high academic promise to the University and to provide them with a challenging academic experience; (c) To provide access to higher education for citizens of the Commonwealth through reasonably open admission policies to associate degree programs and selective admissions to baccalaureate degree programs, at a relatively low student cost with access to a program of financial assistance; (d) To serve as a school of opportunity by providing, as a condition of admission and retention, a mandatory developmental program to allow underprepared students to rapidly attain the skills necessary for rigorous college-level courses: (e) to incorporate the use of results from program assessment to continuously improve the instructional, research and service programs of the University; (3) To provide an environment for learning and individual development of the highest possible quality; (4) To maintain an adequate enrollment of out-of-state residents and foreign nationals to enrich the educational experience for all students while emphasizing the enrollment of Kentucky students; (5) To support the non-discrimination policy of the Board of Regents and to meet or exceed the goals of the Commonwealth's plan for desegregation of Higher Education; (6) To provide intellectual and cultural opportunities which will develop habits of scholarship and intellectual curiosity; provide a deep understanding of American democracy and the citizen's role in maintaining its strength and vitality; impart an understanding of humans and their aspirations; enable effective and efficient communication; and prepare productive and responsive citizens. To these ends the University strives: (a) To offer associate degree programs which are based on student interest and/or societal needs, which are integrated when appropriate with baccalaureate degree programs for individuals preparing themselves in a university setting, and which contain a general education component; (b) To offer baccalaureate and pre-professional programs based on student interests and/or societal needs with a strong general education program as a component of each degree program; (c) To offer graduate programs based on student interest and/or societal needs which provide advance study through instruction and research, strengthen the disciplines and contribute to the total research and/or service efforts of the institution: (7) To provide for individuals and agencies those public services and continuing education opportunities which are compatible with the University's mission and resources; (8) To support and encourage research as an important scholarly activity, recognizing its contribution to effective teaching and learning, its value to the knowledge of the disciplines, and its value to public service; (9) To manage and protect for posterity and to make available for instruction, research and public use, selected natural areas that are unique for valuable for their biological, physical, and historical significance; (10) To provide for the University community and general public a center which promotes artistic and cultural awareness. scholarly pursuits, the free exchange of ideas, and critical thinking; (11) To provide support services which promote the development and well-being of the members of the University community; and (12) To be solvent and financially accountable to appropriate agencies.

## **EASTERN KENTUCKY UNIVERSITY**Summary of Significant Accounting Policies

The significant accounting policies followed by Eastern Kentucky University are described below to enhance the usefulness of the financial statements to the reader.

#### **Nature of Business**

Eastern Kentucky University is a regional, coeducational, public institution of higher education offering general and liberal arts programs, pre-professional and professional training in education and various other fields at both the undergraduate and graduate levels. Located in Richmond, Kentucky, Eastern has a distinguished record of over nine decades of educational service to the Commonwealth.

#### **Accrual Basis**

The financial statements of Eastern Kentucky University have been prepared on the accrual basis except for depreciation accounting as explained in note 2 to the financial statements. The statement of current funds revenues, expenditures, and other changes is a statement of financial activities of current funds related to the current reporting period. It does not purport to present the results of operations or the net income of loss for the period as would a statement of income or a statement of revenues and expenses.

To the extent that current funds are used to finance plant assets, the amounts so provided are accounted for as (1) expenditures, in the case of normal replacement of equipment, minor repair projects and library books; (3) mandatory transfer, in the case of required provisions for debt amortization and interest, (3) transfer of a nonmandatory nature for all other cases

#### **Fund Accounting**

In order to ensure observance of limitations and restrictions placed on the use of the resources available to the University, the accounts of the University are maintained in accordance with the principals of "fund accounting". This is the procedure by which resources for various purposes are classified for accounting and reporting purchases into funds that are in accordance with specified activities or objectives. Separate accounts are maintained for each fund; however, the accompanying financial statements, funds that have similar characteristics have been combined into fund groups. Accordingly, all financial transactions have been recorded and reported by fund group.

Within each fund group, fund balances restricted by outside sources are so indicated and distinguished from unrestricted funds allocated to specific purposes by action of the governing board. Externally restricted funds may only be utilized in accordance with the purposes established by the source of such funds and are in contrast with unrestricted funds over which the governing board retains full control to use in achieving any of its institutional purposes.

All gains and losses arising from the sales, collection or other disposition of investments and other non-cash assets are accounted for in the fund which owed such assets. Ordinary income derived from investments, receivables, and the like is accounted for in the fund owning such assets.

Restricted gifts, grants, appropriations, and other restricted are accounted for in the appropriate restricted funds. Restricted current funds are reported as revenues and expenditures when expended for current operating expenses.

The accounts of the University are classified into four balanced-fund groups: Current, Loan, Plant and Agency. The Current Fund is divided into Unrestricted and Restricted Funds. The Current Unrestricted Fund group includes those economic resources of the University which are expendable for any purpose in performing the primary objectives of the University; instruction, research, and public service, and which have not been designated by the Board of Regents for other purposes. The Current Unrestricted Fund also includes the Auxiliary Enterprises Fund which provides for the current operation and maintenance of the housing operations, University Store, and University Center Recreations. The Current Restricted Fund provides for the receipts and disbursements of grants, special project funds, and federal funded grant and scholarship programs for students. Loan funds consist of resources available for loans to students. The Plant Funds is divided into Unexpended Plant Funds, Renewals and Replacements, Retirement of Indebtedness, and Investment in Plan. The Unexpended Plant Funds consist of funds to be used for the acquisition and/or construction of physical properties for institutional purposes but unexpended at the date of reporting. The funds for Renewals and Replacements consist of funds held in reserve for the renewal and replacement of the housing system. The funds for Retirement of Indebtedness consist of funds set aside for debt services reserves and for the retirement of indebtedness on institutional properties. The Investment in Plant subgroup consists of the book value of funds expended for and thus invested in institutional properties and the bond indebtedness incurred to finance plant acquisitions and construction. Agency Funds consist of funds held by the University as custodian or fiscal agent and funds utilized for certain organized activities.

## **EASTERN KENTUCKY UNIVERSITY Summary of Significant Accounting Policies**

#### **Estimates in the Financial Statement**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### **New Pronouncement**

The University will adopt Governmental Accounting Standards Board Statement No. 35, Basic Financial Statements – and Management's Discussion and Analysis – for Public Colleges and Universities – an amendment of GASB Statement No. 34 in fiscal year 2002. This Statement establishes accounting and financial reporting standards for public colleges and universities and will require the restructuring of the financial statements as well as the recording of depreciation for assets in investment in plant. The adoption of this statement will have a financial effect on the Plant Funds but will not have a financial effect on the Current Funds. The University has not yet determined the financial effect of the adoption of this pronouncement.

#### **Other Significant Policies**

Other significant accounting policies are set forth in the financial statements and accompanying notes.

(FOOTNOTE 1) In addition to annual requirements for principal and interest, there were reserve requirements equal to 25% of annual requirements for principal and interest until the maximum annual requirement remaining for all series (\$5,995,643.75 due FYE 6/30/02) is accumulated with the Trustee. On June 30, 2001, \$5,946,643 was on reserve with the Trustee. Interest income earned through September, 2001, will allow the required debt service reserve of \$5,995,644 to be on deposit with the Trustee by the required October 1, 2001, date.

(FOOTNOTE 2) In addition to annual requirements for principal and interest, there were reserve requirements equal to 25% of the average annual requirements for principal and interest until the maximum annual requirement remaining for all series (\$1,956,293.75 due FYE 6/30/02) was accumulated with the Trustee. The accumulated reserve requirement of \$1,955,630.53 was on deposit with the Trustee as of June 30, 2001. In addition, to the above annual reserve requirements, there was a \$60,812.50 annual requirement for Housing System Renewals and Replacements Fund until this reserve equaled \$1,216,250.00. The accumulated reserve requirement of \$699,035.98 was on deposit with the Trustee as of June 30, 2001.
